- Director & Chairperson, Glenelg Community Hospital
- Committee Member, Australian Lawyers Alliance, South Australia Branch

Memberships and affiliations

- Member, Law Society of South Australia
- Member, Australian Lawyers Alliance
- Member, South Australian Cricket Association

Leadership Required.

In my experience, the amended third party insurance scheme leaves most of you without compensation for pain and suffering and future economic loss after being involved in an accident which is not your fault even if you suffer significant injuries.

The RAA supported the amendments to the scheme.

The amended scheme is a cash cow for the Government, ready for privatisation. It benefits a handful of people who caused their own injury.

The scheme needs to be reformed, otherwise the overwhelming majority of accident victims are left to fend for themselves, if they can.

Many country roads need upgrading.

The RAA Constitution needs revision. For example, under the existing Constitution the Board fills casual vacancies. The appointed members then have the benefit of standing for election as incumbents despite not having been elected.

These problems need redressing.

If elected I will push for reforms.

I need and seek your support.
